

PROFILE SUMMARY

I am a software developer with over 5 years of experience, primarily focusing on Flutter. I also work on frontend and backend development and explore embedded systems (Arduino) in my spare time. I have a proven track record of delivering top-notch solutions on time. I possess excellent problem-solving abilities and have a keen interest in keeping up with industry trends. One of my greatest qualities is delivering pixel-perfect designs from Figma.

SKILLS

Languages Dart, JavaScript, TypeScript, HTML, CSS, Arduino	Libraries & Frameworks Flutter, Vue, Node.js, Express	Tools & Platforms Git, Netlify, Heroku, Firebase, MongoDB, sqllite, Hive, Adobe XD, Corel draw, Figma

PROFESSIONAL EXPERIENCE

- Yourchat ai**
Fullstack Developer

Nov 2023 - Present

 - Created and released two AI-driven mobile apps, accumulating more than 10,000 downloads, demonstrating expertise in Flutter framework and AI integration.
 - Efficiently transitioned a codebase from Python Flask to Node.js Express, boosting scalability and performance of the app.
 - Led the introduction of continuous integration and deployment pipelines, streamlining development processes and ensuring smooth delivery of updates to production environments.
- LVNDR Health**
Fullstack Developer

Sep 2022 - Aug 2023

 - Developed an interactive cross-platform mobile app and crafted a progressive web app using Flutter and Flutter-web.
 - Identified and resolved compatibility issues across different devices and platforms, reducing testing time by 20% and ensuring a smooth user experience.
 - Added a feature displaying calls to users, resulting in a 60% increase in call volume compared to the previous app version.
 - Enhanced unit test coverage from 10% to 80% by incorporating unit tests for Mobx stores and services with the mocktail library.
 - Managed a data pipeline for a mobile and web app using Firebase with cloud functions and Typescript.
- Ultainfinity Global Group**
Mobile Developer

April 2022 - September 2022

 - Built software solutions using various blockchain platforms and protocols like Ethereum and Solana.
 - Rolled out the Solana wallet mobile app for both iOS and Android, enabling functions such as sending and receiving transactions, managing addresses, and viewing transaction history.
 - Designed and verified the secure storage of confidential user data for the app, leading to an improved user experience without any data breaches occurring.

EDUCATION & CERTIFICATIONS

- Federal University of Petroleum Resources Effurun**
Bachelor of Science, Computer Science. 2016 - 2021.
- Embedded Sysytem Beginners Workshop 2.0**
Oseke Technology Solutions
